This report was generated from the privacy-preserving LEA view only. No raw user data, phone numbers, emails or cryptographic secrets were available to this tool. All evidence is anchored to a Merkle tree whose root is recorded above. Legal mapping is indicative decision support only — confirm with the investigating officer and public prosecutor before filing.

1. Executive Summary

The TitanSafe platform analysed the ingested dataset for coordinated-inauthentic-behaviour (CIB) signals. **2 threat cluster(s)** were identified. The highest severity is **MEDIUM**.

120B	61(2)	Criminal conspiracy (coordinated amplification)

Recommended Escalation

1. Verify the claim with the responsible authority (e.g. water board / district admin) and publish a rebuttal
2. Issue takedown / labelling request to platform; monitor spread for community-directed framing
3. Request T1 evidence to assess origin pattern; T2 only if the claim escalates to incitement
